## ON-/OFF-NET INFORMATION

On/Off-Netting interconnects the Defense Switched Network (DSN) with a local or long-distance commercial network. This service enables users to call an on/off-net DSN switchboard and complete a call to another party via a combination of DSN and commercial connectivity. A partial listing of DSN Selected Listings on pages 85 & 86 and on/off-net switchboards is available on pages 87 and 88. On/off-Net calls are permitted under the following circumstances:

**Official Calls.** Official on/off-net calls are only permitted for emergency conditions with national security implications or for exceptional circumstances specifically authorized by a Commander in Chief, Chief of a Service, or director of a defense agency to all locations served by a DSN on/off-net switchboard. However, on/off-netting at the distant end is at the discretion of the local commander and may be prohibited due to operational requirements, local restrictions, or host-nation laws and agreements.

**Health, Morale, and Welfare (HMW) Calls.** DSN may be used to place HMW calls from or to OCONUS isolated or remote geographic locations because of non-availability of acceptable commercial services. Use of DSN for off-net HMW calls is governed by Department of Defense (DOD) Directives and must be approved by the appropriate Commander in Chief (CINC). Deploying commands should ascertain whether the CINC of the area they are deploying to has approved such calls and coordinate with Base Telephone prior to deploying. If CINC approval has not been granted or cannot be determined prior to deployment, deploying commands should report approval and request HMW off-net patches by message as soon as they determine that the appropriate CINC has approved them. HMW calls from deployed or OCONUS locations will be placed by dialing DSN: 312-751-6262. No off-net HMW call will incur a toll charge to the government even if the intent is to reimburse the government. HMW calls from CONUS locations will be extended in a bona-fide emergency only. See Base Order BO 2305.5M.
